Summary

- Software engineer with hands-on experience building responsive web and mobile applications using React, Next.js, TypeScript, JavaScript, React Native and Mern Stack.
- Building dynamic, responsive, user-friendly and visually consistent web and mobile interfaces.
- Passionate about learning new technologies and collaborating with like-minded individuals who share my enthusiasm for innovation.
- Eager to share knowledge and ideas with others to foster personal and professional growth.
- Possesses good problem-solving skills and a quick learner.

EDUCATION

Comsats University Islamabad, Lahore Campus

Bachelors in Software Engineering

- Cumulative GPA: 3.56/4.00
- Campus Bronze Medalist

Lahore, Pk

Feb 2021 - Feb 2025

Punjab Group of Colleges

Intermediate - Fsc Pre medical

- Grade: A+

Lahore, Pk

2018 - 2020

Unique Group of Institutions

Matriculation

- Grade: A+

Lahore, Pk

2016 - 2018

EXPERIENCE

Lyrics Meaning Website Project

Software Engineer (MERN Stack)

Remote

Dec 2023 - Feb 2024

- Architected and developed a production-ready full-stack music platform using Next.js, TypeScript, MongoDB, and Mongoose, implementing both frontend and backend services within a unified application.
- Implemented secure authentication and authorization using JWT, bcrypt, Next.js Middleware, and protected API routes.
- Engineered scalable RESTful APIs for user management, song retrieval, search, ratings, comments, and user interactions.
- Designed reusable, type-safe React components and modular application architecture, improving maintainability and development efficiency.
- Built advanced SEO infrastructure including XML sitemaps for all application pages to maximize search engine visibility.
- Developed high-performance search functionality with keyword-based discovery, dynamic routing, and optimized server-side rendering.
- Implemented composite identifiers (e.g., User ID + Song ID) to ensure unique user interactions, preventing duplicate ratings, likes, and other actions while maintaining data integrity.
- Managed production deployments using FTP server and coordinated with server and QA team to ensure stable application delivery.
- Collaborated and participated in requirement analysis, testing, debugging, deployment, and feature enhancements.
- Delivered a fully responsive and accessible user interface with modern UX principles, ensuring a seamless experience across all devices.

FreeLancing

Self-Employed

Remote

July 2024 – Aug 2024

- Built responsive web applications using React and JavaScript, developing and integrating frontend components with RESTful APIs and backend services, worked with fellow backend developer ensuring all deadlines were met and client expectations were exceeded.
- Developed and maintained websites using React, JavaScript, Next.js adhering to modern design principles and responsive web practices.
- Managed project budget effectively, minimizing costs while delivering high-quality results.
- Stayed updated on industry trends and best practices through continuous learning.
- Utilized skills in React, JavaScript, Next.js, TypeScript, Redux, Tailwind CSS, ShadCN/UI, CSS, API testing and integration.

ADDITIONAL

Technical Skills

- Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA), Operating Systems.
- Database Systems (DBMS): MySQL, Microsoft SQL Server, Stored Procedures, Views, Indexes and DB optimization, MongoDB.

- Frontend Development: React.js, Next.js, React Native, HTML5, CSS3, JavaScript, TypeScript.
- React Hooks, Context API, React Query, Redux, Component-Based Architecture, State Management, Routing.
- Styling & UI: Tailwind CSS, Bootstrap, ShadCN/UI.
- Backend Development: Node.js, Express.js, Socket.io
- API Development, Testing and Integration: REST APIs, Postman.
- Version Control: Git, GitHub.
- Project Management & Collaboration: Jira.
- Code Quality & Static Analysis: SonarQube.
- Software Testing: Manual Testing, Basic Automation Testing, Selenium, OWASP ZAP (Security Testing).
- Python, C, C++, Java.
- UI/UX & Prototyping: Figma, Canva.
- A Strong problem solver and quick learner.
- LeetCode/Competitive Programming

Languages: Fluent in English.

Certifications & Training:

- Free web related courses from freecodecamp and Scrimba, Java Script Mastery.

Coding Competitions

- Coding Spree (ACM Comsats)
- WEB-A-THON (ACM Comsats)

Major Projects

- Tour Management System (Mern Stack)
- Song Lyrics Meaning System (NextJs, Typescript, MongoDB)
- Chat Application (Reactjs, Nodejs, WebSockets)
- News Website (Reactjs)
- Event Management System (Reactjs)
- Gym Management System (Php)
- Doctor Assistant (Final Year Project - Reactjs, ReactNative)
